

SERVICE A Path With Heart

You Are Invited to Answer the Call to Volunteer as an Assistant

A Message to you from Ron & Mary

For nearly 40 years, the University of Santa Monica has been at the frontier of experiential Soul-Centered education. In 2021, we are delighted to announce that we will be serving again as lead facilitators for two beloved Programs, **Soul-Centered Living I** and **Consciousness, Radiant Health & Healing**—both online.

We invite you to join us in serving the courageous students who are coming forward from across the country and around the world to participate in USM Online. As you know, it is the nature of the Soul to Love and to Learn. The higher we ascend in Consciousness, the more our Souls wish to Serve, for it is in Service that the Soul is nourished and grows.

As a grad of USM's Programs, you have also experienced first-hand the generosity of the Volunteers who have assisted you during your journey of Awakening. We are deeply moved as we reflect upon all of the USM graduates who have served over the course of the last 40 years. Thank you for making our dream of offering Soul-Centered education a reality! Now you have the opportunity to not only experience the true magic of the USM Online classroom but also accelerate your own Awakening through serving.

We invite you to participate as one of the vital pillars of our community, providing the foundation of loving support so that USM students can continue receiving the Blessings and benefits of a USM education. By Serving, you truly are making a difference ... to the students, to the USM Mission, and perhaps most importantly, to your own Soul.

With Gratitude and Loving,

ACCELERATE YOUR TRANSFORMATION!

Benefits of Serving at USM:

- Strengthening you in your Spiritual Awareness such that it becomes easier to remember you are a Divine Being having and using a human experience and to live within that context.
- Partaking of the Blessings of Joy, Loving, and Deep Peace that are the natural by-products of Service.
- Experiencing your own continuing Spiritual Awakening by participating within an organization and an energy field that are part of the evolutionary impulse actively moving on the planet at this time.
- Integrating the Principles and Practices of Spiritual Psychology at a deeper level while staying current with the latest information and inspiration coming through USM.
- Uplifting and clearing yourself once a month by immersing yourself in the healing energy of USM.
- Continuing to deepen your connection with Spirit and attunement with your Inner Counselor.

USM: A CULTURE OF GIVING

Experience the Joy of Service!

I've loved assisting with the online format. There's something truly magical about being able to support the class from the comfort of my home! It's been an amazing way to learn and experience the transcendence of USM's teachings—it doesn't matter where we are, whether online or in person, the healing and learning are ever present. It's also been a great opportunity to flex into new leadership skills and opportunities as we say 'yes' to what's here and now.
